# A COMPLETE SOLUTION FOR MEDICAL DEVICE ORGANISATIONS

## INCREASE ADOPTION & REVENUE VELOCITY

- Reduces to professional education time by up to 60% which means onboarding new users quicker in the process realising as much as \$420K additional revenue per user.

## PROVIDE IN-FIELD SERVICE WHILST REMAINING SAFE

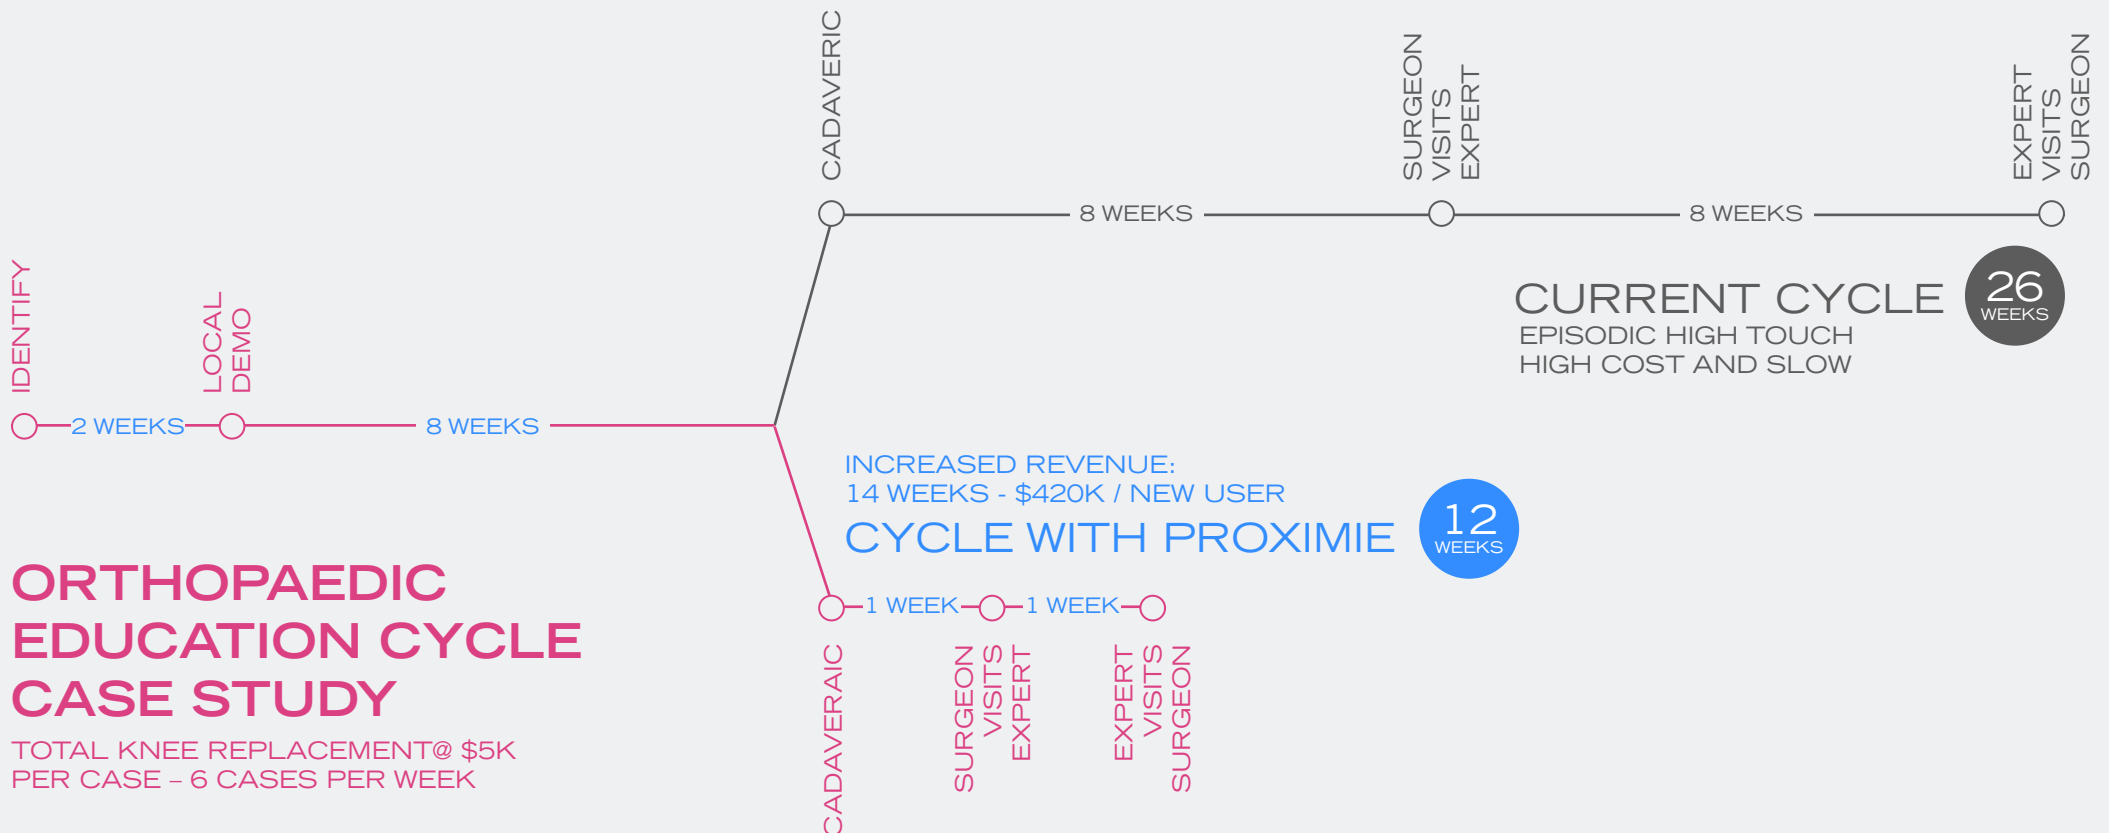

- Connect your expert teams to operating room scrub teams and surgeons
- Provide enhanced support, beyond the usual constraints of geography
- Keep employees, healthcare professionals & patient safe without compromising on support

## ACCESS TO IMPROVED QUALITY

- Improves access to higher level experts globally.

## REMOVES PHYSICAL COSTS & SAVES TIME

- Reduces travel & expert costs & time
- Removes risk of case cancellation and wasted face to face visits

# ENHANCING IN FIELD SUPPORT & EXPANDING CAPACITY

“Telementoring can be safely used in the adoption phase of a new robotic technology. This approach allowed more flexibility in patient scheduling and reduced travel costs with similar outcomes.”<sup>1</sup>

<sup>1</sup> Asmar, J., Labban, M. and El Hajj, A., 2020. MP32-15 Integration of telementoring during the adoption phase of a novel robotic technology: is a virtual approach virtuous? The Journal of Urology, 203, p.e490

## APPLICATIONS

LIVE REMOTE OR SUPPORT

LIVE REMOTE PROCTORSHIP

LIVE REMOTE PRECEPTORSHIP

EXPANDING SERVICE CAPACITY

VIDEO AND AUDIO COMMUNICATION

ANNOTATION AND THE PROXIMIE AR HAND

UP TO 4 LOW LATENCY HD CAMERA VIEWS

UTILISE EXISTING HARDWARE
