# SubtlePET™ denoises images acquired in up to 25% of the original scan time

CE Mark Approved

FDA Cleared

Imaging centers and hospitals use SubtlePET to
## Improve image quality on accelerated protocols

Standard Scan	Fast Scan	Fast scan enhanced by SubtlePET™
24 mins	**6 mins**	**6 mins**

4 minutes per bed	1 minute per bed	1 minute per bed

4 minutes per bed	1 minute per bed	1 minute per bed

20 minutes	5 minutes	5 minutes

✓ **Increased throughput**   ✓ **Better patient comfort**

SubtleMR™

# Upgrade Your Existing MRI Machines with the Latest Technology

SubtleMR™ is an AI-powered software solution used to enhance the quality of accelerated MRI protocols by increasing image sharpness and denoising.

FDA CLEARED CE

- Applicable for Brain, Spine, and Knee protocols
- Compatible with any MRI scanner and field strength
- Easy implementation with no change in workflow

> " I have been impressed with SubtleMR and its deep learning approach to image enhancement. The quality of MRI images enhanced by SubtleMR is outstanding.
>
> Lawrence Tanenbaum, MD, Radiologist

As acquired	SubtleMR™ enhanced
Siemens Skyra 3T — Axial MPRAGE	Siemens Skyra 3T — Axial MPRAGE
GE HDe 1.5T — Sagittal T2-FLAIR	GE HDe 1.5T — Sagittal T2-FLAIR
GE HDe 1.5T — Sagittal T2	GE HDe 1.5T — Sagittal T2

With your accelerated protocols, you can:

- ✓ **Enhance image quality**
- ✓ **Increase sharpness**
- ✓ **Improve patient experience**
